BRIGHT LIGHTS.

## DATA PROTECTION INFORMATION / CAMERA FOOTAGE FOR RESEARCH PURPOSES

As at: June 2019

**ZKW Lichtsysteme GmbH** (Scheibbs Strasse 17, 3250 Wieselburg, [office@zkw.at](mailto:office@zkw.at)) cooperates with **TU Wien**, Institute of Visual Computing and Human-Centered Technology (Favoritenstrasse 9-11, 1040 Vienna, [sekretariat+E193-01@tuwien.ac.at](mailto:sekretariat+E193-01@tuwien.ac.at)) and **emotion3D GmbH** (Rainergasse 1/8, 1040 Vienna, [office@emotion3d.ai](mailto:office@emotion3d.ai)), collectively referred to as “project partners”, within the scope of a research project – sponsored by the Austrian Research Promotion Agency (“FFG”) – in relation to a combined 3D video and adaptive front lighting system for safe autonomous driving (“research project”). The project partners jointly act as controllers pursuant to Art. 26 GDPR. Therefore, the project partners have concluded an agreement under Art. 26 GDPR that delimitates the different duties and responsibilities among all the parties involved. Compliance with information requirements and the management of the rights of data subjects described below were primarily assigned to ZKW Lichtsysteme GmbH.

ZKW Lichtsysteme GmbH carries out rides with ZKW development vehicles (especially at night and in bad weather), taking pictures and recording videos using optical sensors (via cameras installed in the vehicle). In the process, the surrounding area is captured as well, and personal data will be collected and jointly processed, since natural persons as well as licence plate numbers may be recorded as well. The data captured will exclusively be used for the purposes of the research project and will only be stored for as long as this is required to achieve the purpose (until the end of the project or in accordance with the retention periods under § 2f (3) (1) FOG (Austrian research organisation act)) and subsequently anonymised or deleted. The data will exclusively be exchanged between the project partners and will not be transmitted to any third parties.

This joint processing of personal data shall take place on the basis of the **special provisions regarding data processing for scientific research purposes (Art. 89 GDPR in connection with § 7 DSGVO (Austrian data protection act) in connection with §§ 2a et seq research organisation act “FOG”)**. In processing the data, the project partners will observe the applicable data protection provisions and in particular undertake for themselves and their employees to ensure appropriate technical and organisational measures with a view to the diligent management of data privacy incidents and data secrecy in accordance with § 6 DSGVO. In this context, each controller shall be responsible themselves for (i) meeting the duties to provide information under Art. 13 and 14 GDPR, (ii) keeping a processing register, (iii) cooperating with the local supervisory authorities, (iv) notifying data subjects in case of any data protection incidents involving a high level of risk, and (v) appointing a data protection officer.

### Your rights

You are basically entitled to a right of access. Additionally, you have a right to rectification of incorrect data and to erasure of your data (“right to be forgotten”). You may also be entitled to a right to restriction of the processing of your data, a right to objection as well as a right to delivery of the data provided by you in a structured, commonly used and machine-readable form (“data portability”). Pursuant to § 2d (6) FOG, however, the exercise of these rights is restricted to the extent that it prevents or seriously affects the achievement of the research goal.

If you believe that the processing of your personal data is in violation of data protection legislation or that your data protection rights have been infringed in any other way, you may lodge a complaint with the data protection authority. In Austria this is the Austrian Data Protection Authority, Barichgasse 40-42, 1030 Vienna. Prior to filing a complaint with the Data Protection Authority or when exercising your rights or in case of any other questions, please get in touch with our data protection officer (available at: [datenschutz@zkw-group.com](mailto:datenschutz@zkw-group.com)).
